ONCE AGAIN.

Hear the old familiar howl.
Hear the old perennial growl.
We have heard it oft before.
We have heard it o'er and o'er.
Never has a year gone by
But we've heard the self-same cry.
Now it's sounding far and near;
"Turkeys will be scarce this year."

BURNING LEAVES

Cause of Much Annoyance to Many—City Should Have Ordinance Regulating Burning.

Now that the time of year has arrived when leaves have begun to fall, most everyone who has trees around his or her premises is burning leaves. This is quite necessary in a number of cases, but it seems that there should be a time set as to when the leaves should be burned. The writer noticed persons burning leaves Saturday night on one of Maysville's principal streets. This is not only dangerous as a means of causing fire, but is also unhealthy and unpleasant to those who live nearby and have to sleep in rooms that have been filled with smoke.

Several days ago a man was fined in the Newport Police Court for burning leaves in the afternoon, the time for burning them there being from 8 until 11 o'clock in the morning. It seems that such a regulation should be adopted here and should be ENFORCED.

TO STOCK STREAMS

State Game Warden to Make Streams of Neighboring Counties to Abound With Fish.

State Game Warden George Hill and assistant, L. C. Shaw, of Paris, passed through the city Saturday with twenty-two cans containing fish with which he they will stock small streams and ponds of Fleming, Bourbon and other counties of the State. The fish were obtained from a fish supply station down the river.

The supply of fish in this section has become so depleted in the last few years that it was thought imperative by the officials that the stock be renewed.

It would be a proper move at this time to prohibit fishing in these streams until these fish thrive and produce others. Fish multiply very rapidly and it would be only a short time before an abundance of the fishy tribe he had again.

Elmer Watkins Runs a Knife Into George Duley's Side Saturday Night—Watkins Escaped After Being Arrested.

Saturday night about 11 o'clock, Elmer Watkins and several other young men of this city entered the National Pool Room at the corner of Second and Sutton streets, and ordered a lunch, and after they were through eating they knocked the dishes off the counter and broke them.

Mr. George Duley, the young man in charge of the place, asked them to pay for the dishes and they refused, so he ordered them out of the house.

After closing at 12 o'clock Mr. Duley walked across the street to Chenoweth's corner and Watkins was waiting for him and with a pocket knife stabbed him in the left side just above the waist.

Mr. Duley hurried to Dr. McIntire's office and had the wound dressed. Although painful, the wound was not serious.

Watkins was arrested by Officer Bloomhuff and when searched at Police Headquarters a knife and a pistol were found on his person. After being searched in the Chief of Police's office, Watkins asked to be allowed to get a drink in the Court Room. The privilege was allowed, but instead of getting the drink he continued on through City Clerk G. Wood Owens' office and escaped through a back window. He has not yet been apprehended.

ARRESTED CRAP SHOOTERS.

Saturday evening Officer Dudley Bloomhuff made a raid on one of the box cars on the switch at the foot of Limestone street and he captured nine crap shooters. They will be tried before Judge Whitaker in Police Court this afternoon.

WHY PHYSICIANS ARE PROTECTIONISTS

It is a curious fact that among the learned professions physicians furnish the largest percentage of Protectionists. College professors, whose knowledge and beliefs are chiefly derived from books, and who know little or nothing of the practical affairs of business, are mostly Free-Traders. Clergymen as a rule give small attention to economic questions, and many of them, unaware of the relation which exists between prosperity of the wage earner and the advancement of the cause of religion, are inclined to favor the doctrine of cheapness as practiced by the Free-Traders. Lawyers, who think more about their fees than of the source from which the fees come, are apt to be Tariff "reformers." Then why is it that physicians are nearly all Protectionists? It is because the physician, more than any professional man, gets down deep into the heart of things, the truth of things. A man may modify his statements to the minister, but not to his doctor. The physician deals with the head, the heart and the pocket of his patients. He is an investigator of conditions, of cause and effect. He does not theorize or guess; he knows. His diagnosis enters into more than mere physical facts. Nothing is withheld from his knowledge. The more a man knows of the truths of life and its successes and failures the more certain he is to be a Protectionist.

HELPLESSNESS IN DIXIE

The South being in power at Washington crippled the manufacturing North by the Wilson tariff, which hurt it not at all. Now that European war has hurt its market it sends King Cotton to Northern cities begging, "Buy a bale."

If we should respond to an appeal from Chicago's pork packers to "Buy a barrel" to hold till the market advances, Mr. Wilson would find us guilty of an act in restraint of trade and prosecute us under the Sherman law.

And the cotton growers are appealing to our stable women to "Buy a bale" and substitute for linen, which is made from flax grown in North Central states.

And the planters of the South heeded the instant advice to diversify crops to maintain the fertility of the soil, it would not now be a mendicant.—Hamilton (O.) Republican.

YOU CAN'T GET AWAY FROM IT.

With typical, they-should-worry acquiescence to fate the good people of Brussels were in the midst of a military ball when the Germans arrived.

The dashing General Staseye was maxing with the daughter of the burgomaster for the contest cup when the cry, "The Germans! The Germans!" introduced a hesitation not on the program.

With an oath and a rapid apology to his fair partner, the General rushed to the balcony, vaulted the railing and was off over fields of grass as smooth as those carpets from which the city derives its name.

Hotfoot after him, while the yellow moon peered down like a great Brussels sprout, came a yelling horde of Germans.

"They have recognized me!" thought the panting officer as he ran. "They want the plans, the plans!"

Exhausted, he was pulled down while he was trying to scale a wall and surrounded.

"Now, you!" puffed the leader of the pursuers. "Show us that step you were doing!"

DO IT NOW

Maysville People Should Not Wait Until It Is Too Late.

The appalling death-rate from kidney disease is due largely to the fact that the little kidney troubles are usually neglected until they become serious. The slight symptoms often give place to chronic disorders and the sufferer may slip gradually into some serious form of kidney complaint.

If you suffer from backache, headaches, dizzy spells; if the kidney secretions are irregular of passage and unnatural in appearance, do not delay. Help the kidneys at once.

Doan's Kidney Pills are especially for kidney disorders—they act where others fail. Over one hundred thousand people have recommended them. Here's a case at home:

Mrs. B. Neal, 497 W. Second St., Maysville, Ky., says: "One of my family had a great deal of trouble from his back and kidneys. Doan's Kidney Pills made him better and he always praises them."

Mrs. Neal is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mrs. Neal recommends—the remedy backed by home testimony. 50c all stores. A REGULAR KILLJOY.

It was a sweet, and play, and there was hardly a dry handkerchief in the house. But one man in the first balcony irritated his neighbors excessively. Instead of weeping, he laughed. At last a lady by his side turned upon him indignantly.
"I don't know what brought you here," she sobbed, "but if you don't like the play you might let other people enjoy it."

THESE AND THOSE.

"So you favor a reduction on these articles," said the tariff expert.
"Yes," replied Senator Sorghum.
"But not on those?"
"Certainly not. Those are produced by my constituents. These are for other Senators to look out for."

"VOTES FOR WOMEN"

Mrs. Murray R. Hubbard Delivered
Notable Address Last Evening on
This, The Leading Topic
of The Day.

At Neptune Hall last night a most appreciative audience of Maysville's best citizenship, listened with close attention, that was most flattering to the speaker, to Mrs. Murray Rodman Hubbard, as she made a most eloquent, forcible and logical appeal for franchise for women. Her lecture was replete with facts, forcible illustrations and touching stories showing the sad conditions arising from woman's disfranchised position.

While men have been the wealth producers, yet upon women have devolved the responsibility of its prudent outlay and wise distribution. The natural query then is: Should the potential weapon, the ballot be given to the producer alone? Creation is an important function but is useless unless along with it goes conservation; and I submit that it is the part of wisdom to confer it upon the other. The decision of the struggle of '61 was that this country could not exist half slave—half free. I believe sincerely that its betterment and progress will be enhanced by a constitutional declaration that this is a real democracy wherein all citizens, men and women, share and share alike the responsibility of choosing those who make and construe the laws governing the home, wherein resides the foundation of civil liberty. In primitive times the man and woman equally guarded the home. The club was the only weapon of defense and each used it equally in the protection of the home. When with the enlightenment of civilization the domination of a brute strength gave way to peaceful government, the club which was used by both was superseded by the ballot only in the hands of the man.

It is conceded that the home is the foundation of government. In it we find the principles of democracy perfectly applied. We would never presume to cut the efficiency of that home by withholding from it the usefulness of either the man or woman. And I believe this larger home, the city, the State, the Nation, has half of its efficiency withheld by denying women the franchise.

Government is merely a transaction of the people's business in a great corporation. Now, if women have stock in a bank or other corporation, who would deny them the right to transact their business by virtue of this stock at a stockholders' meeting? In city, State or Federal Government, we find both the woman's and man's point of view. Men are likely to vote in the terms they think which seems to be dollars; women would vote in the terms they think, home and children. We remember a recent congress voted an appropriation of \$3,000,000 for the propagation of fine hogs and the same congress appropriated \$30,000 for child welfare. If mothers had been among the constituents I think more consideration would have been given the child.

We notice in the popular house of Congress a resolution reciting that our standing army was too small, that our navy meager, it has not enough men to man our battleships. This is merely a straw in the breeze but it is a danger signal. Even now but for our brilliant Secretary of State Bryan and our incomparable President, we would be at war with Mexico. We were happy in the belief that we were living in a civilized age because our wonderful President had piloted us safely through those troubles. Our belief in peace received a shock when we find civilized Europe engaged in the most brutal war in history. Let us do our utmost to hasten the day when the wishes of mothers shall have their due weight in public affairs, knowing by so doing we hasten the day when war shall be no more.

Awake men and women of America before it is too late and turn from a limited democracy to a real democracy, that we may avoid the horrors thrust upon civilization by the limited monarchies of Europe.

The family in a group photograph—before they have left the old fireside and gone out into the big world—Ever think of it?
